## HOME HERO

# Selenium automates browsers. That's it!

## What you do with that power is entirely up to you.

Primarily, it is for automating web applications for testing purposes, but is certainly not limited to just that.

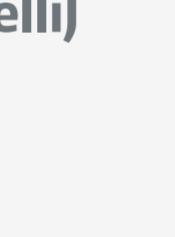

Body large Boring web-based administration tasks can (and should!) also be automated as well.

## DRILL DOWN HERO

# About Selenium

Body large Selenium is a suite of tools specifically for automating web browsers.

#### Hacking with IntelliJ

Body Thu, 23 Jun 2016

Jetbrains have a programme for Open Source projects which allows them to receive IntelliJ IDEA licenses. As part of that programme, which the Selenium project has participated in for many years, they've asked us to provide a fair and balanced review of IntelliJ. I'll attempt to do that, and I'll try and state my biases up-front so you're aware of them.
